### Specifications

Product Model: PB5125  
Material: ABS  
Capacity: 10000mAh/3.7V/37Wh  
Input:  
Micro: 5V $\Rightarrow$ 2.0A  
USB-C: 5V $\Rightarrow$ 2.0A  
Solar: 5V $\Rightarrow$ 120mA  
Output: 5V $\Rightarrow$ 2.0A  
Size: 158\*78\*28mm  
Weight: 354g $\pm$ 10g

### Use Instructions

1. Short press the power on/off button, the power indicator lights up, showing the current remaining power; short press the power on/off button twice, the power bank turns off.
2. Hand-crank charging and solar charging design. When an emergency occurs, you can use hand-crank/solar power to generate electricity to achieve lighting and charging functions, which is a good emergency helper.

4

3. The built-in LED flashlight has three modes (always on, SOS, flashing). Long press the power switch, the flashlight is always on, click once to switch to SOS mode, click again to switch to flashing mode, and click again to turn off the flashlight.

4. If the power bank is low on power, you need to connect it to a power source for charging; after it is fully charged, the indicator button is always on.

### Warning

Please do not disassemble the product yourself. Please do not place this product near heat sources. Please do not place the product close to water or in damp places.
